Team Waterfall Method

Ryan Niday, Adam Van Hal, Stuart Wreath

Platform

Officially supported by Java in OS X

Work Assignments

GUI - Adam

File IO - Stuart

Date Control/Main - Ryan

Challenges

Everyone using a different OS to write and test individual code (Java is not as cross platform as originally thought)

Scheduling/Time commitment

All learning the same skills within java

The little details involved in making a calendar

Not Included Features

Indicator for what days have events created during week view

Cross platform functionality

Hindsight

Should not have used three different OS to make the calendar

Plan more, improvise less
